Nombre del puesto que le interesa

Melina Soto Badilla

Melinavsb@gmail.com / 85973039

PROFILE

Software Engineering student with technical training in networking and certifications in Cybersecurity and Linux. Experienced in web development using Java and C#, relational database management, and microcontroller programming for IoT projects. Responsible, proactive, and skilled at teamwork and working under pressure.

EXPERIENCE

Web and Software Development | Version Control (Git) | Microcontroller Programming

- Designed and developed web systems with Java and C# backends, integrating relational databases for user management, data processing, and business logic.
- Implemented SQL queries for university projects, web games, and interactive forms.
- Actively participated in technology fairs presenting functional IoT prototypes based on ESP32 boards, using Python for sensor and controller programming.

EDUCATION

Bachelor's Degree in Software Engineering — Universidad Cenfotec (2024 - Present)

Technical Degree in Networking — Colegio Técnico Profesional de Santa Ana (2023)

ADDITIONAL TRAINING

CCNA3 — Cisco NetAcad (2022)

Linux Essentials — Cisco NetAcad (2022)

Cyber Security Essentials — Cisco NetAcad (2022)

SKILLS

- Responsibility
- Teamwork
- Working under pressure
